SPA CHEMISTRY FOR AN AQUA FINESSE SYSTEM

*Please turn on spa pumps when adding chemicals to your spa.

EVERY USE

- Add 1 scoop** of Granular Chlorine **per person* (Spa Boss or Spa 56)

EVERY WEEK

- Test water** Chemistry (Alkalinity, pH, and Calcium Hardness)
- Add Spa Up** *if pH is Low* (low pH is caustic and will attack materials in your spa)
- Add Spa Down** *if pH is High* (high pH will cause calcium buildup on the heater and other parts)
- Shake** Aqua Finesse Solution and **Add** according to chart above

*Spray your filter with your hose every few weeks

| Aqua Finesse Per Week | |
|-----------------------|----------|
| Gallons | Solution |
| <250 | 6oz |
| 251-350 | 7oz |
| 351-450 | 10oz |
| 451-550 | 13oz |
| 551-650 | 14oz |

EVERY DRAIN AND REFILL *(Recommended every 4-6 months)

- Use the Spa Clean (Puck) to purge water lines **BEFORE** draining old water
- Deep clean** filter with filter cleaner tablets (2 per filter)

*Continue with the EVERY WEEK checklist

- Clean and treat** cover, pillows, and synthetic cabinet with 303

OTHER

- Replace** main filter every 18-24 months
- Replace** micro-clean filter every 4-6 months (on select models)
- Replace** Clear Ray bulb every 12 months (on select models)

We understand this may be a lot to remember. In order to better serve you, please check out our new iPhone application, **Hot Tub Assistant**, that helps you set reminders, store your shopping list, and more! Learn more at www.hottubassistant.com.
