SPA CHEMISTRY FOR CLEARRAY or SILVER SYSTEM

*Please turn on spa pumps when adding chemicals to your spa.

EVERY USE

	Add 1-2 oz of Spa 56 after <u>every</u> use!
	Add 2oz of Renew before use if there is a heavy bather load (extra people)
	EVERY WEEK
	Test water Chemistry (Chlorine, Alkalinity, Ph, and Calcium Hardness)
	Add 1-2oz of Spa 56 if Chlorine level is low
	Add Spa Up if Ph is Low (low Ph is caustic and will attack materials in your spa)
	Add Spa Down if Ph is High (high Ph will cause calcium buildup on the heater and other parts)
	Add 2oz of Renew of Replenish (an oxidizer which will remove dead bacteria)
	Add 2oz of Spa Defender (calcium inhibitor)
	Add 2oz of Enzyme (eliminates scum line in tub)
